

AC-DC Converter Attached Neural Amplifier: Required Block Diagram

Use exactly these three subckt symbols and port signatures. TOP wraps CONVERTER and CORE only.

Font intent: Pretendard style. PDF uses standard Helvetica fallback for portability.

Measurement rule

Similarity: TOP VOUT transient vs target response
Power/Area: CORE only, using XCORE and VDD_CORE
Total CORE power = static + dynamic

Required subckt signatures

CORE VIN VREF VDD GND VOUT
CONVERTER VAC_P VAC_N GND VDD
TOP VIN VREF VAC_P VAC_N GND VOUT
